Screen plan & navigation

Account-based access, shared group records and simple personal profiles.

Team: Efe Çağan Akkuş 32413 · Emir Keskin 31020 · Yunus Emre Yolal 31294

SplitMate helps small groups share expenses, track balances and record repayments. This document presents 10 main screens, four contextual panels and the navigation between them.

Step 2 coordinator: Yunus Emre Yolal (31294)

MAIN PATH

S01 Log in → **S03 My groups** → **S05 Overview**

ACTION / SOURCE	DESTINATION / RETURN
Create account / S01	S02 -> valid confirmation -> S03
Create group / S03	S04 -> S05 + invite panel
Join group / S03	S10 -> preview + confirm -> S05
Profile / S03	S09 -> Edit panel -> S09; Back -> S03
Add expense / S05	S06 -> confirmation -> S05
View or edit / S05	Details panel -> S06 edit -> S05; Back -> S05
Group tabs / S05, S07, S08	Expenses S05 <-> Balances S07 <-> Members S08
Payment / S07	Payment panel -> confirmation -> S07
Owner invite / S08	Invite panel -> Close -> S08

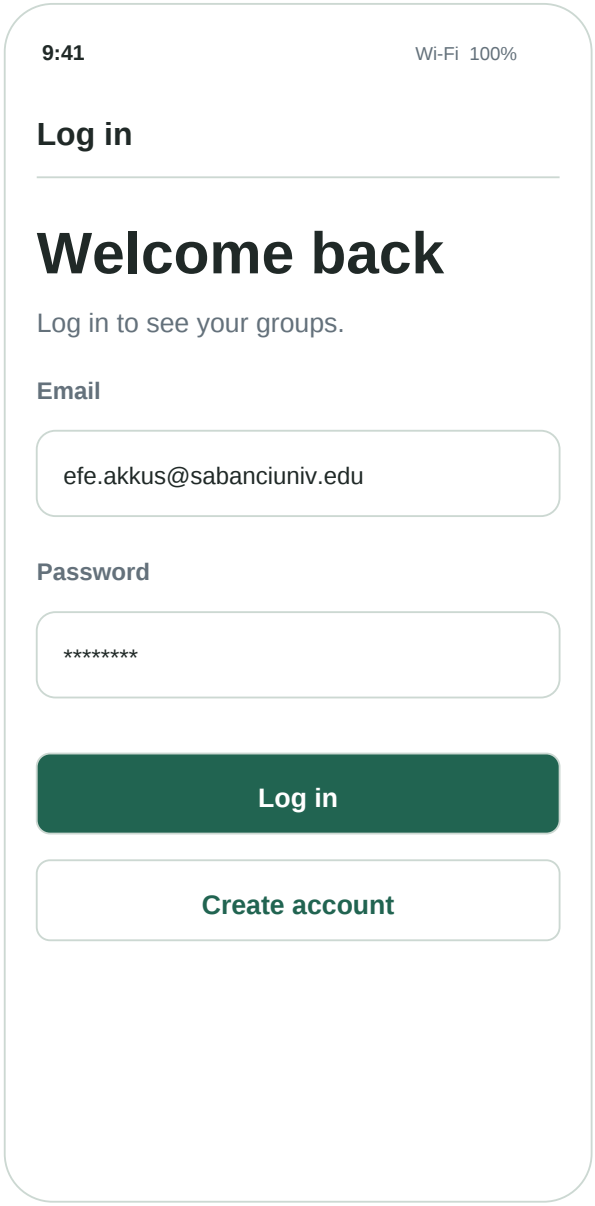

Reading the designs: S01-S10 identify the main screens. Green buttons highlight primary actions. Group tabs switch between Expenses, Balances and Members while keeping the selected group.

Contextual panels: Expense details, Record payment, Edit profile and Invite members open over their parent screen. Closing a panel returns to that screen. Pages 7-8 show these panels; page 9 shows form validation and confirmation.

Entry & account screens

Screen layouts, purpose and navigation.

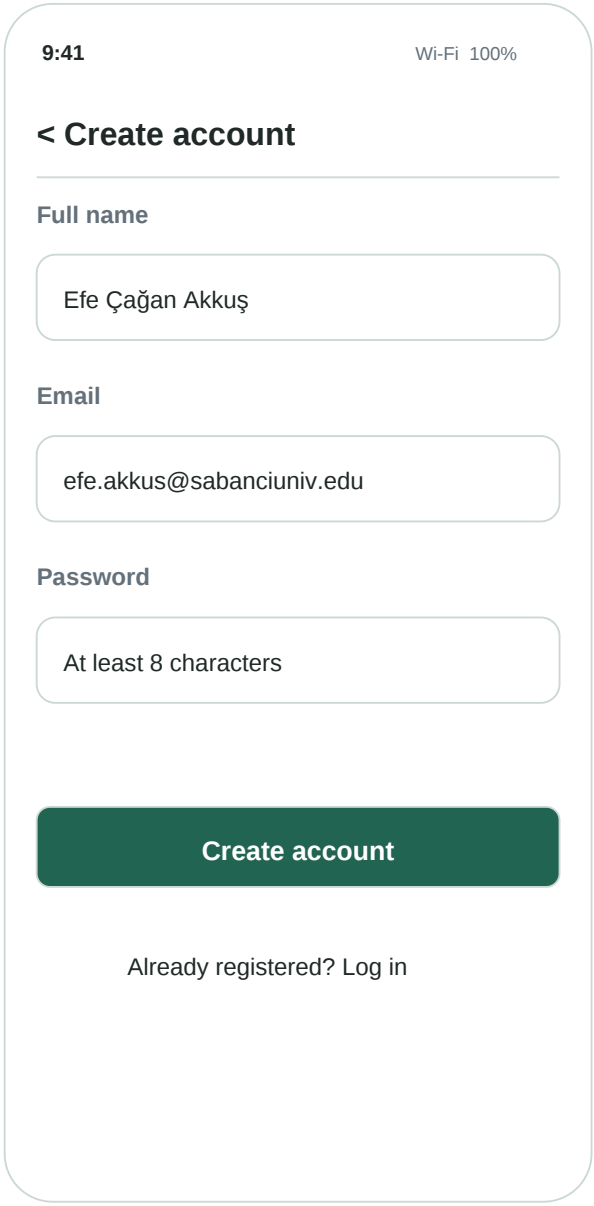

01 Log in

Sign in with email and password to view your groups. Create account opens registration. Invalid credentials show an error while preserving the email.

Navigation: Log in -> S03; Create account -> S02.

02 Create account

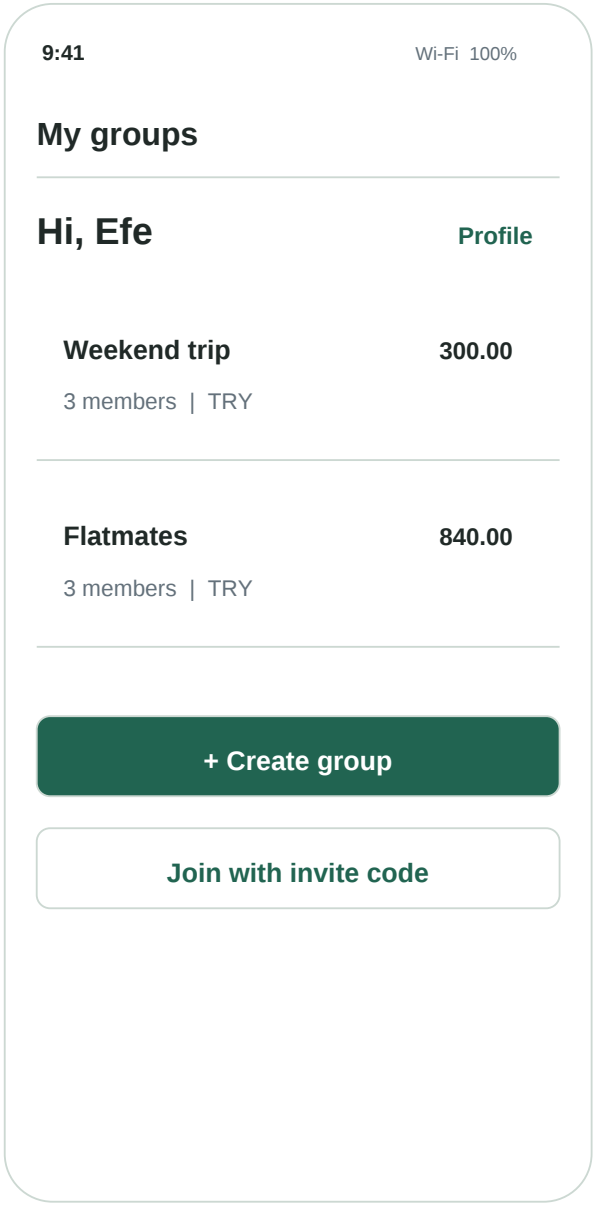

Enter full name, email and password. Confirm valid details to open My groups. Add the optional photo and IBAN later from Edit profile.

Navigation: Create account -> confirmation -> S03; Back -> S01.

Groups & creation

Screen layouts, purpose and navigation.

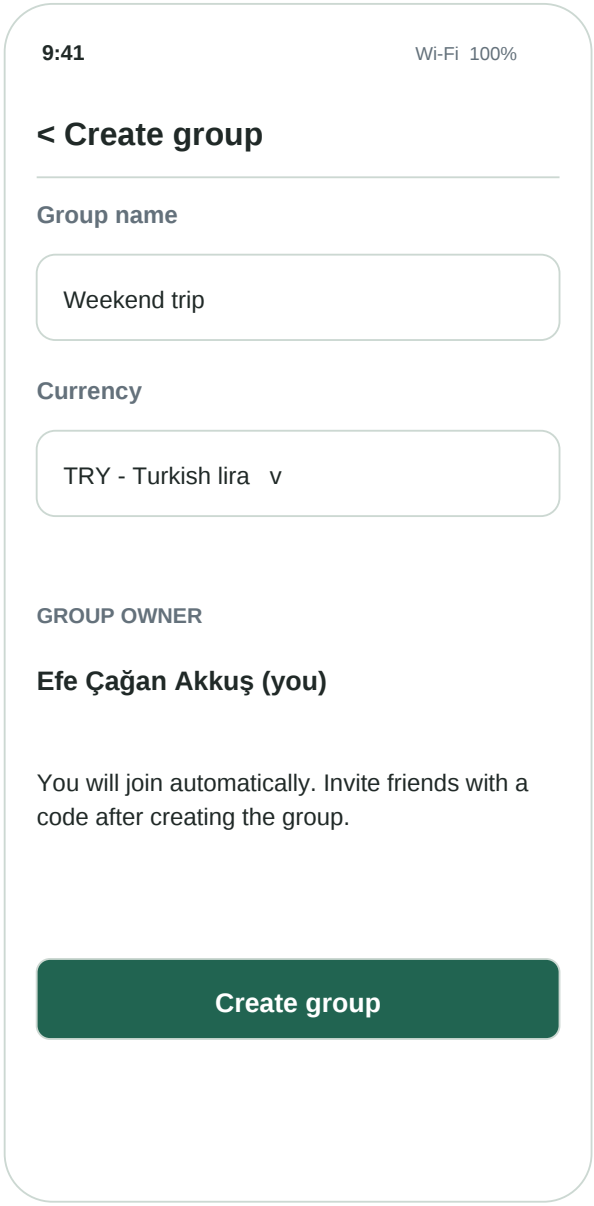

03 My groups

View your joined groups. Tap a group to open its overview, create a new group, or join using an invite code. Profile opens your personal details.

Navigation: Group -> S05; Create -> S04; Join -> S10; Profile -> S09.

04 Create group

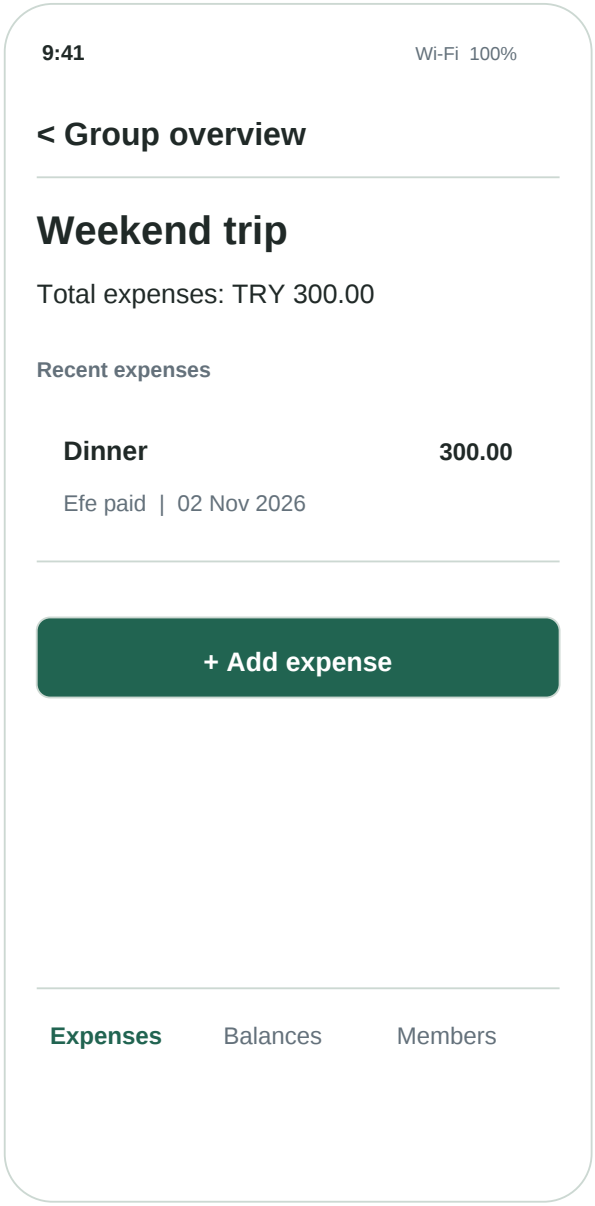

Choose a group name and currency. You become its first member and owner. After confirmation, the group overview opens with an invite-code panel.

Navigation: Create -> confirmation -> S05 + invite panel; Cancel / Back -> S03.

Expense history & entry

Screen layouts, purpose and navigation.

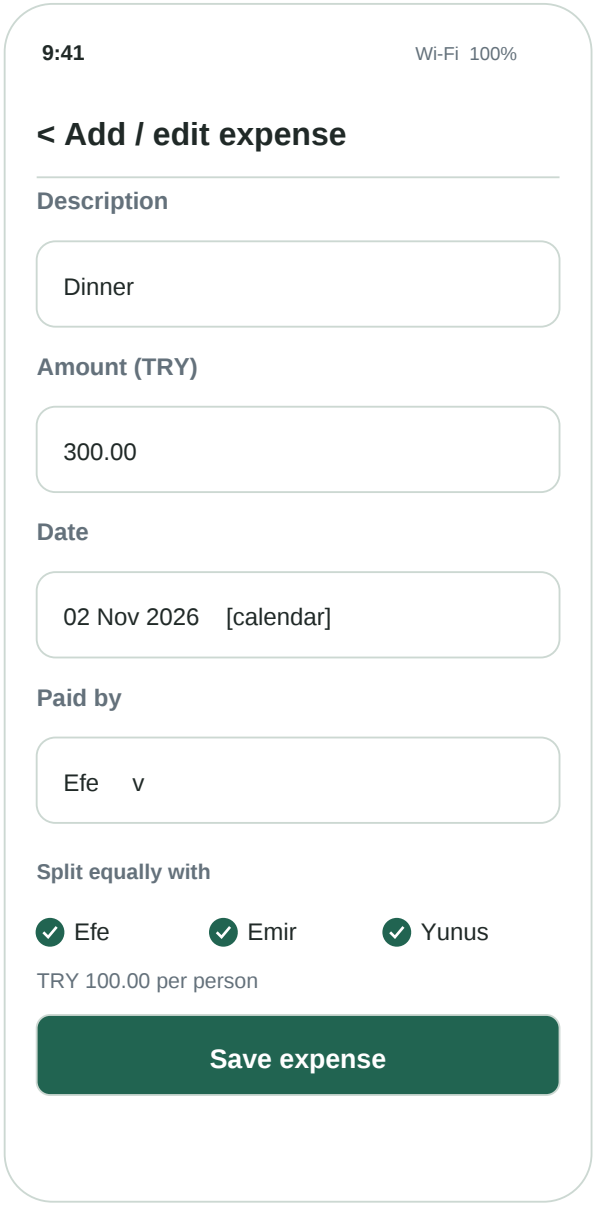

05 Group overview

View the group total and expense history. Expense cards show payer, amount and date. Open a card to inspect it; use the tabs for balances or members.

Navigation: Add expense -> S06; Expense -> details panel; Balances -> S07; Members -> S08.

06 Add / edit expense

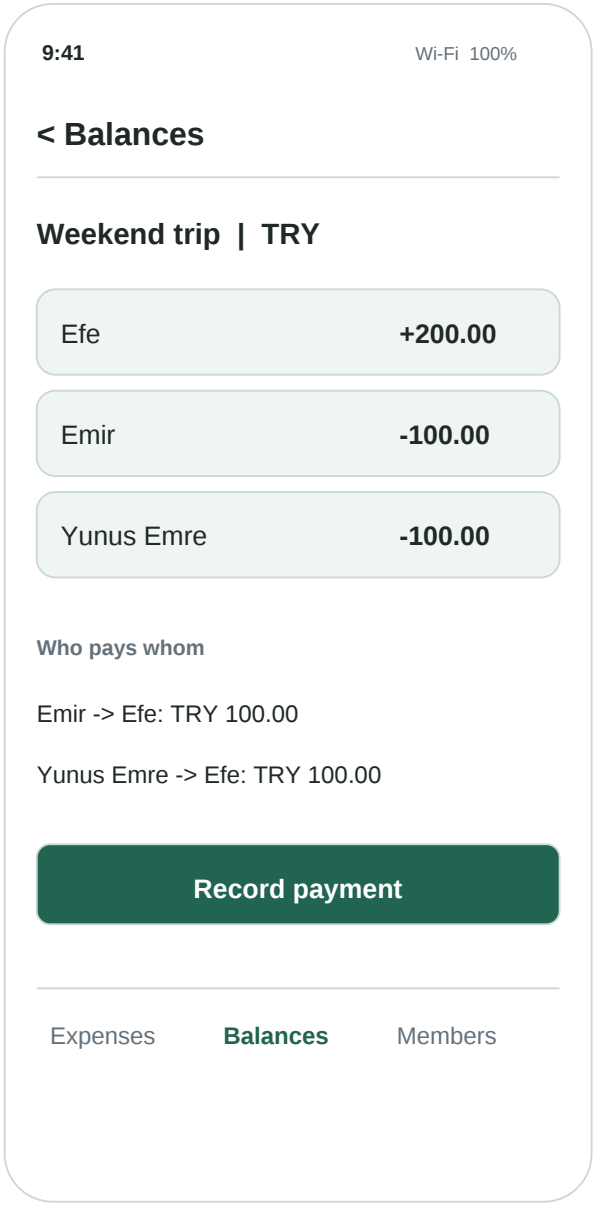

Enter description, positive amount, date, payer and participants selected from joined members. Split equally. Editing pre-fills the form. Only the expense creator can edit/delete it; others can view.

Navigation: Valid Save -> confirmation -> S05 (add or edit); Cancel -> source.

Balances & members

Screen layouts, purpose and navigation.

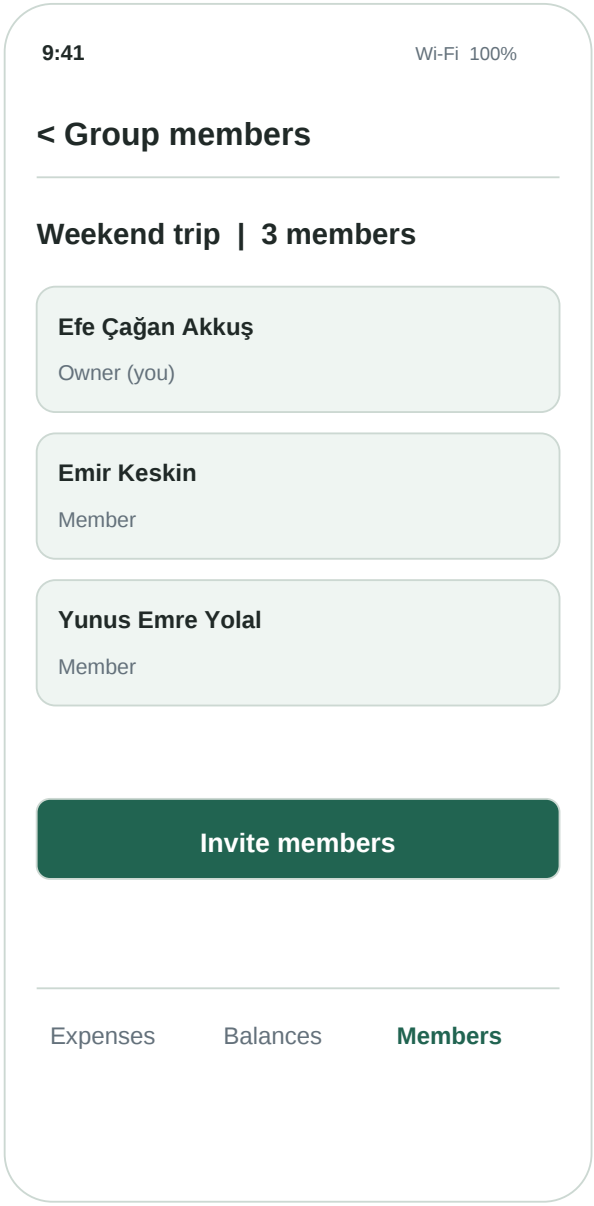

07 Balances

Show net balances and suggested repayments. Positive means the member should receive money; negative means they owe money. The group ledger remains balanced.

Navigation: Record payment -> payment panel; Expenses -> S05; Members -> S08.

08 Group members

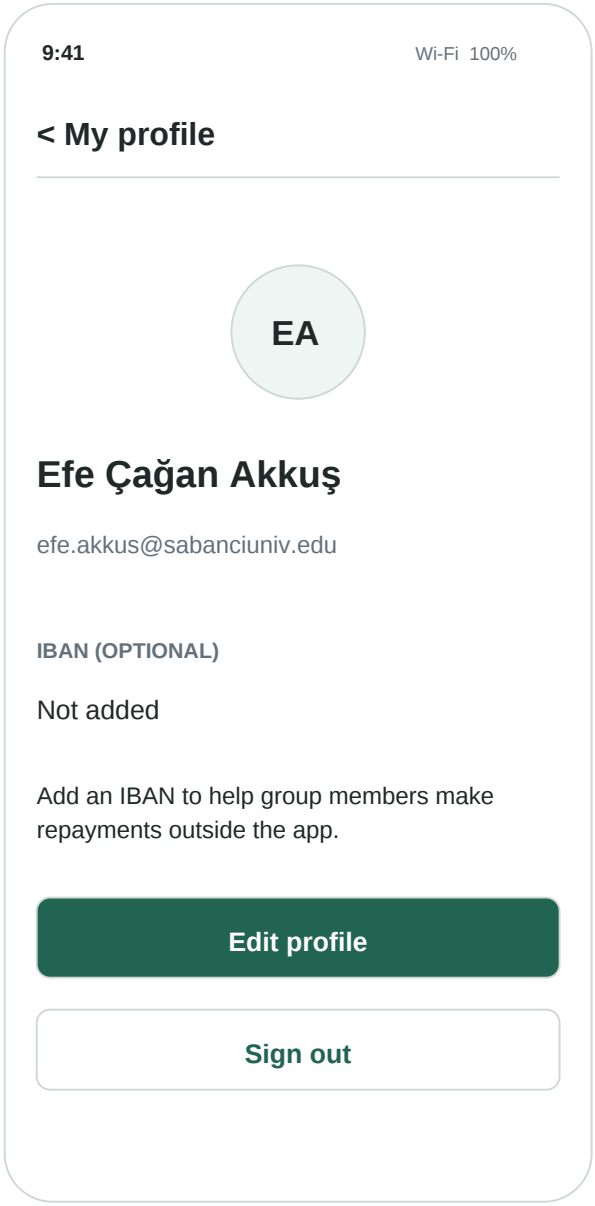

List joined accounts and their profile photos or initials. Members edit only their own profile. The owner manages invite codes; all group members may view the list. IBANs are not shown here.

Navigation: Owner: Invite members -> invite panel; Expenses -> S05; Balances -> S07.

Profile & joining a group

Screen layouts, purpose and navigation.

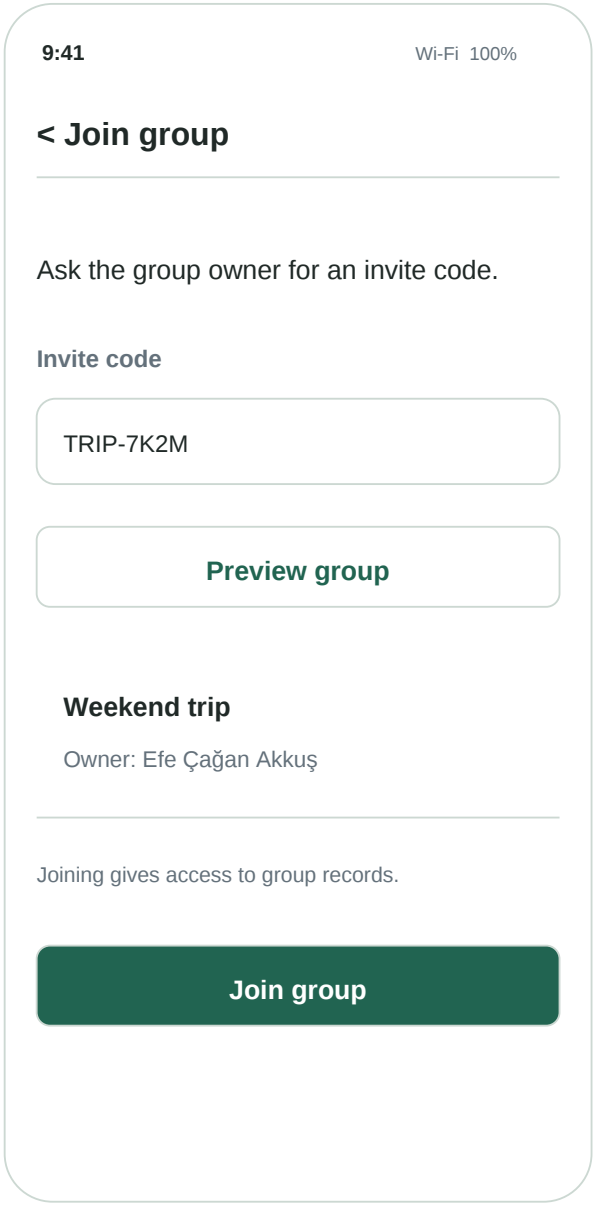

09 My profile

View your own full name, photo or initials, email and optional IBAN. Email is read-only for this scope. Sign out clears the signed-in session and returns to login.

Navigation: Edit profile -> edit panel; Sign out -> confirm -> S01; Back -> S03.

10 Join group

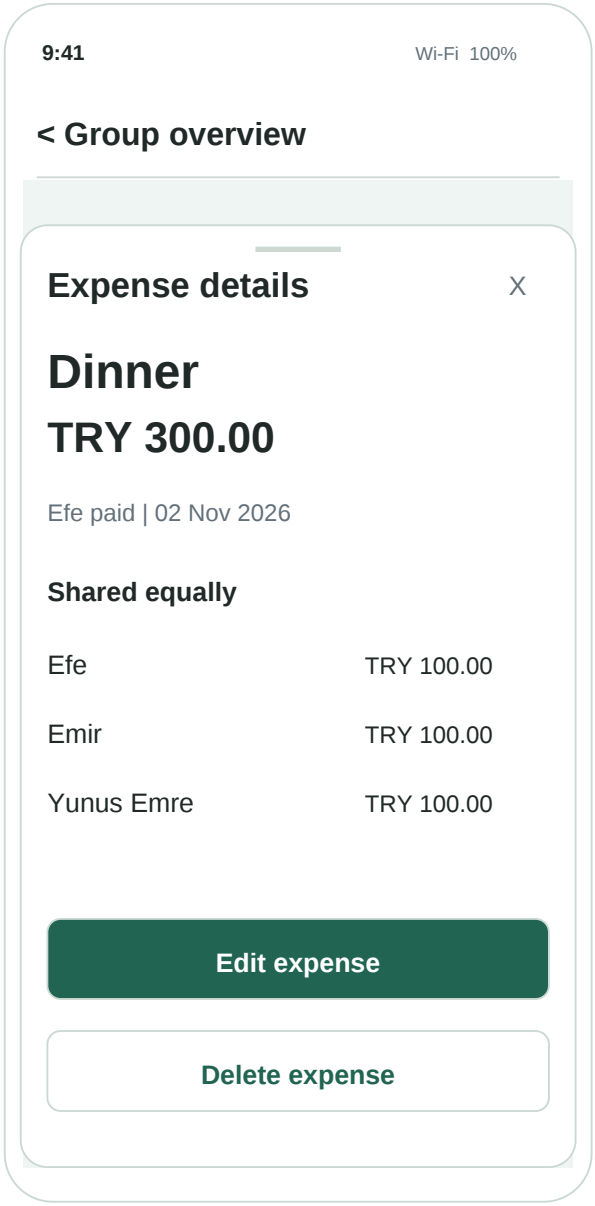

Enter an invite code, preview the group name and owner, then confirm joining. Invalid or expired codes show an inline error. Already joined groups open directly without a duplicate membership.

Navigation: Preview -> same screen; Join group / Open group -> S05; Back -> S03.

Expense details & payment

Contextual bottom sheets. Close returns to the underlying screen.

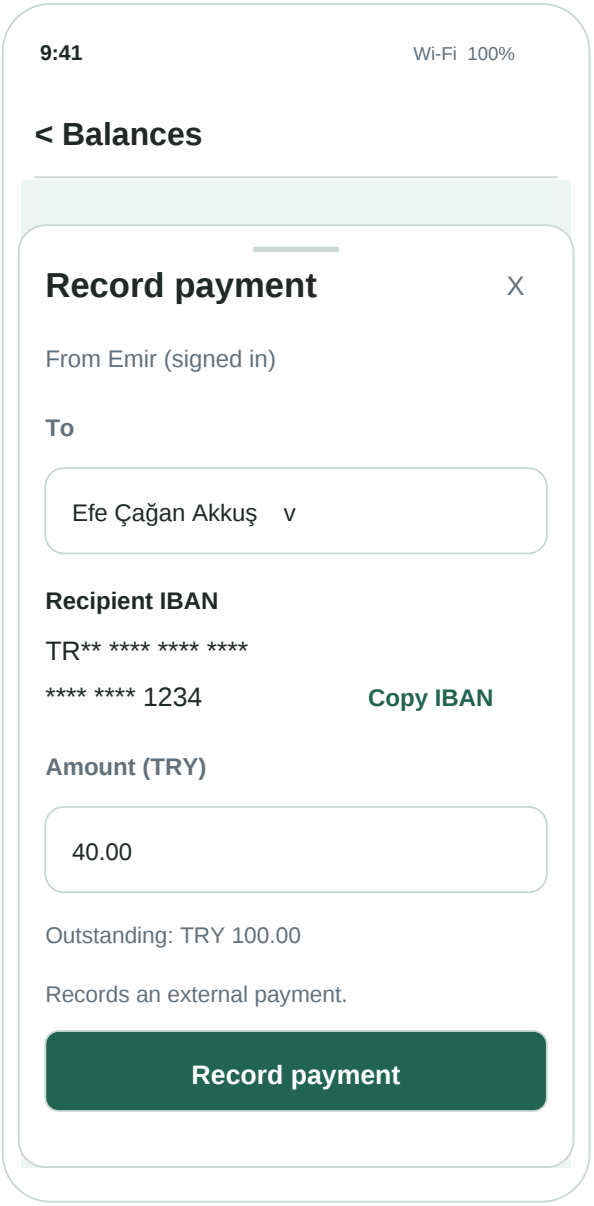

Expense details

Opened from an expense in S05. Edit and Delete are visible to its creator. Delete opens a confirmation dialog before changing the shared ledger.

Navigation: S05 -> details sheet; Edit -> S06; Close / delete confirmed -> S05.

Record payment

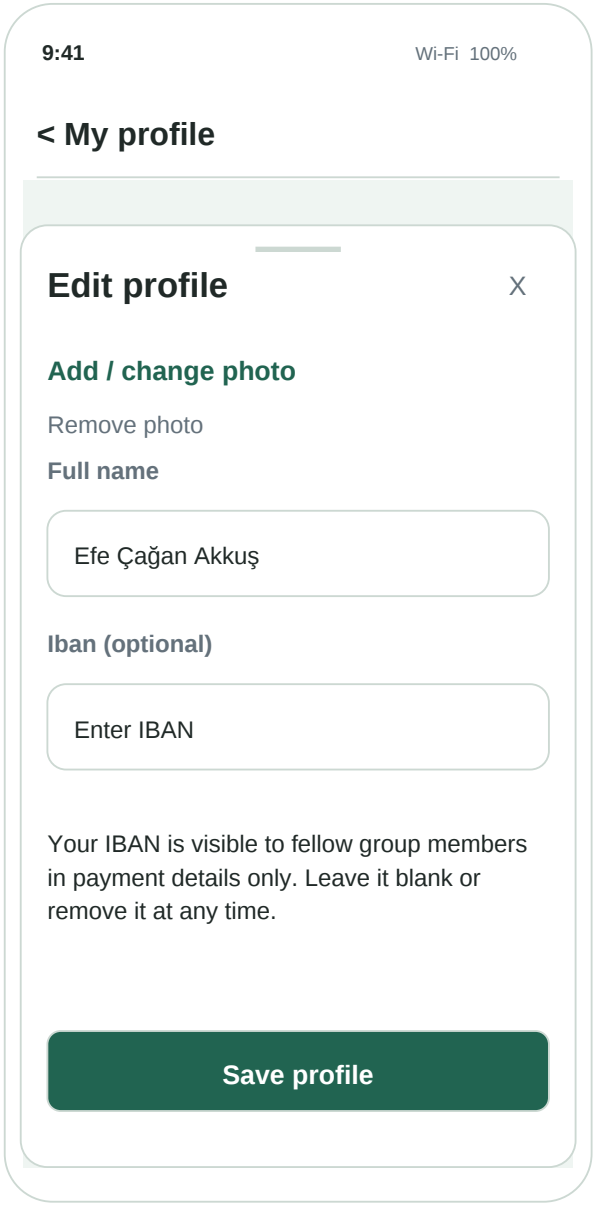

Example with Emir signed in. The masked IBAN is illustrative; Copy uses the full value. If no IBAN exists, show a message. Confirm a payment already made; no money is transferred.

Navigation: S07 -> payment sheet -> confirmation -> S07; Close -> S07.

Profile edit & group invitation

Optional profile details and a compact invite-code sheet.

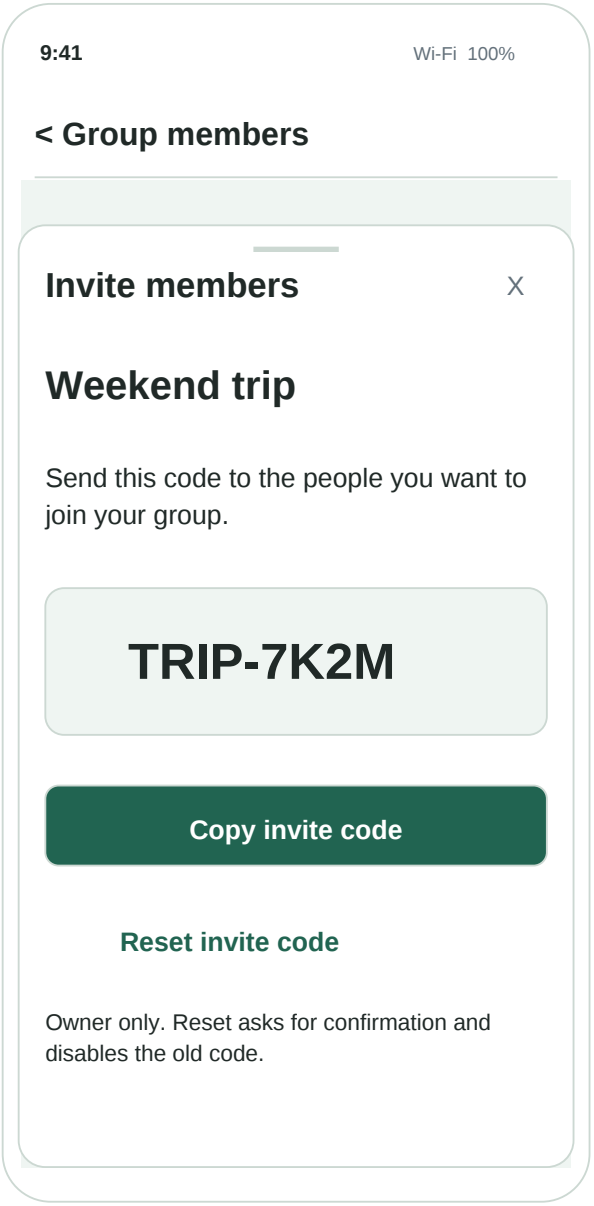

Edit profile

Opened from S09. Full name is required; photo and IBAN are optional. Save validates the form and opens confirmation. Cancel/close preserves the existing profile.

Navigation: S09 -> edit sheet -> confirmation -> S09; Close -> S09.

Invite members

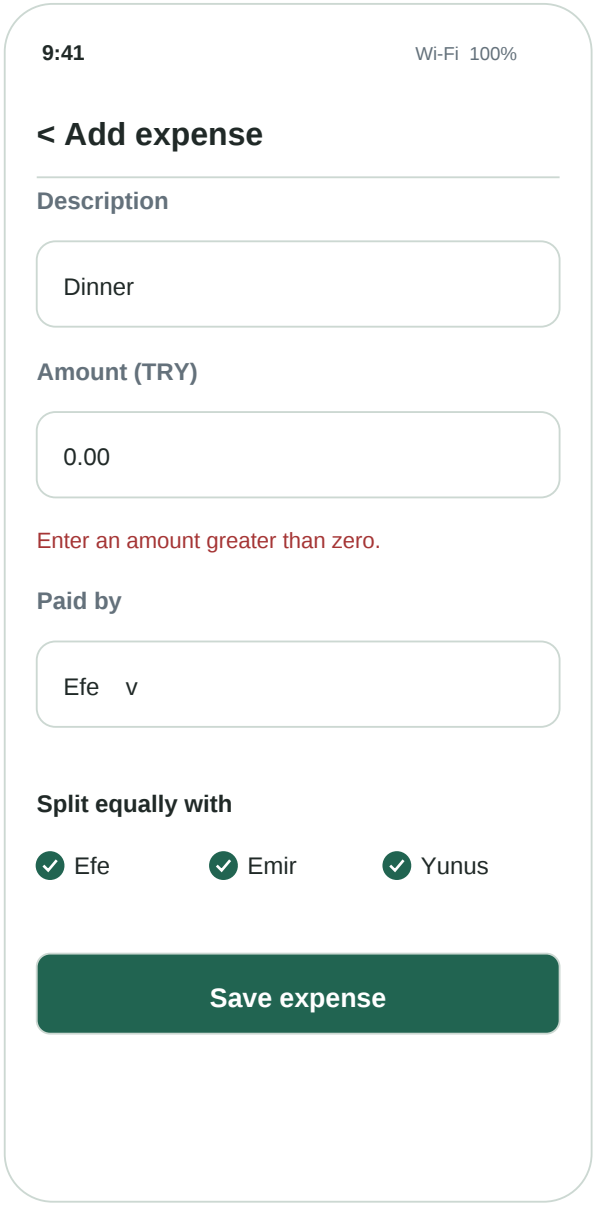

Opened by the owner from S08 or automatically over S05 after creating a group. Copy shows a copied message. Reset affects future joins; current memberships remain.

Navigation: S08 or S05 -> invite sheet; Close -> the same underlying screen.

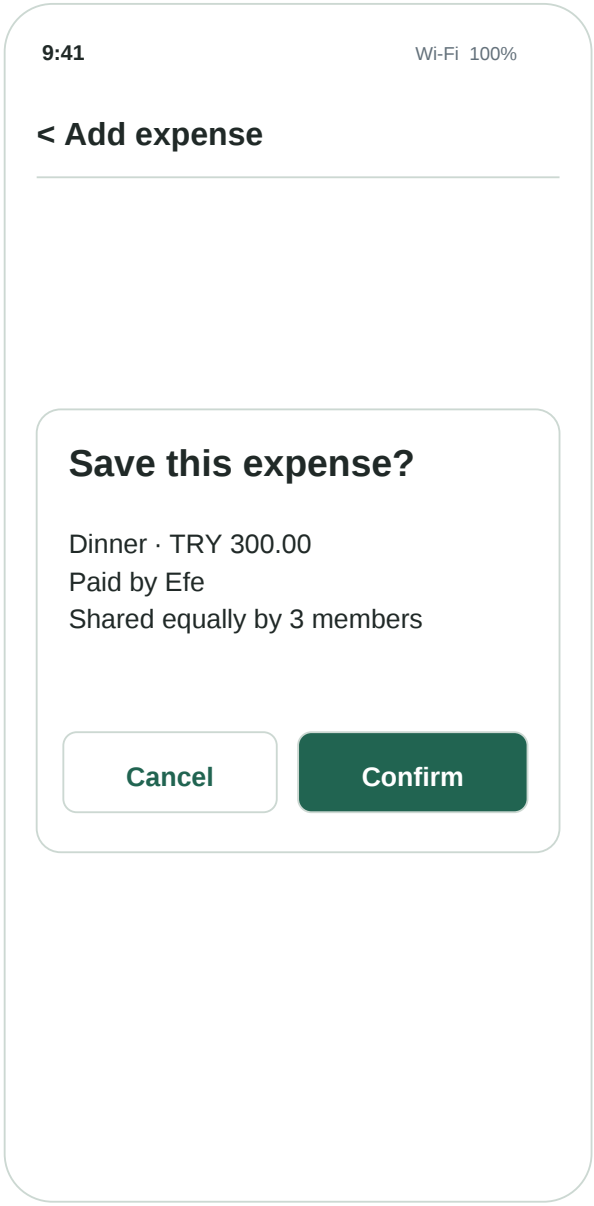

Validation & confirmation

Two supporting interaction states; these are not additional main screens.

An invalid amount displays an error next to the field. The form keeps your entries. Correct the amount and save to open the confirmation dialog.

Navigation: S06 -> inline error -> correction -> confirmation.

Confirm saves and closes the form. Cancel returns to the filled form without saving. Delete, payment and profile submissions use the same confirmation pattern.

Navigation: Valid S06 -> dialog; Confirm -> S05; Cancel -> filled S06.
